

Inspiring the learning journey

The Flood...

2012 we were due a new roof! We got a new roof but the journey in getting it was rather quite memorable! The old roof was taken up and during that time we had quite a bad storm! My office ceiling fell in and all over the school the roof was leaking. We had buckets everywhere! The children were amazing and would just dodge the buckets and streaming water. We had no front entrance at the time as the new extension was also being built. Parents would enter via Year 6. They would pass me situated in the Lounge thinking I was the SEJ librarian as I had no office for 6 weeks!

October 2016 I got the call every Headteacher would dread... 'your school is on fire!' Luckily, it was contained in Dahl learning base. Smoke had gone through the whole school so we had to close for two days. Parents' Evening continued in the Plaza for everyone with a smell of smoke! Once again everyone reacted brilliantly and the team soon turned it around to re-open Dahl two weeks later. The cause was an electrical fault in the thermostat!

The Fire...

The SEJ Flood and the SEJ Fire!

A South End journey like no other by Mr Springett-McHugh, Headteacher 2009-2017
