

Vision and Values

@ South End

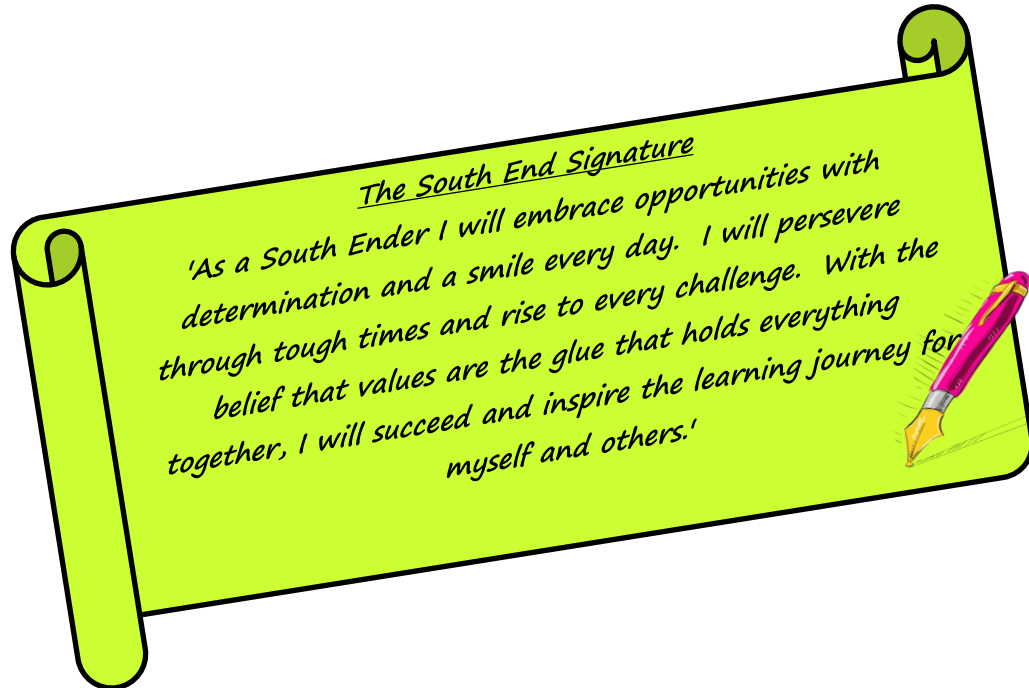

Junior

Inspiring the learning journey...

We hope that at the moment you enter our school site you will experience everything we do that Inspires the Learning Journey! This motto is at the heart of every decision we make, every lesson we teach and every activity we undertake. It is underpinned with two key elements: The South End Signature and Our School Values and Skills.

Every adult and child who joins our school signs up to our Signature. This is what we all stand by and ensures we are unified in our vision and values to make South End Junior the wonderful school that it is.

Our values are definitely the 'glue that holds everything together' as stated in our Signature. We focus on one value every two weeks linking it to everything we do in our learning and around our school. By the end of every child's learning journey at South End they will hold all of these skills and show these values in their every day lives.

Our values are shared with the infant school and are launched every term during assembly. They are:

- Pride
- Respect
- Courage
- Perseverance
- Independence
- Aspiration

Children can earn value stones when promoting or showing the value of the term.
