

Structure and remit of the Governing Body and Committees

South End Junior School Governors sit on a Governor Committee and/or are in one of the school PODs, which are:-

- My World and Beyond
- Body, Mind and Soul
- Communication and Arts
- Innovation and Enterprise.

PODs are a group of staff, alongside a Governor, and are led by member of the school's Leadership Team. PODs are responsible for subject leadership and contribute to strategic school planning. By Governors being members of the PODs, a culture of support and challenge to school development is created and Governors are well placed to hold the school to account.

The Leadership & Management Committee is responsible for ensuring that the Governing Body's statutory duties with regard to Finance, Personnel, Premises and Health & Safety are met. This committee is chaired by Margaret Barnes.

Named Governors are also linked to the following areas:-

- Safeguarding
- Special Educational Needs
- Head's Performance Management
- Disadvantaged Children and Sports Premium.
